Mod morph minecraft 1. 16 1

Author: Draylar1 ✓ 4 weeks ago ✓ 97.964 views Identity Mod 1.16.4/1.16.1 was created with inspiration from the Morph Mod; It allows players to freely transform into all entities of their desires. To obtain one's form, you must first defeat that particular crowd; after that, a small pop-up will inform you of your performance. You now explore the world with a great superpower. There will be no limits that do not reach you with such power. Explore the ocean like a fish, travel through the nether disguise like a Ghast, or even an Ender Man and go through The End without having to deal with The Dragon. You could literally be anything you want, from a bee to an Iron Golem. Features: Press to open the Morphing menu. Kill a mob to get its shape. Screenshots: Required: Fabric Modloader Fabric API How to install: Minecraft Launcher Download and Install Vanilla Download and Install Fabric Installer for Vanilla Launcher Run recently downloaded .jar file, choose the version you want and press Install. Run, select the profile with Fabric installed, and then press Play Press Start on desktop Choose %run type %appdata%, and then press Enter. Goes in Roaming/.minecraft/mods Put the pot. Run files on the mod map and minecraft. Identity Mod 1.16.4/1.16.1 Download Links: For Minecraft 1.16.1 Fabric version: Download of Server 1 – Download of Server 2 for Minecraft 1.16.3 Fabric version: Download from Server 1 – Download of Server 2 For Minecraft 1.16.4 Fabric version: Download from server 1 – Download from Server 2 With the Morph Mod you can take over the shape and skills of different mobs in the game. Once you kill a crowd you will absorb its essence and be direct! Each crowd has special skills that you will bring once you have transformed. If a chicken, for example, will allow you to gently float on the ground rather than until you die. Spider will allow you to climb walls. And swimming can be achieved by a squid. But with the good there is inevitably some bad effects with certain mobs. If you wanted a zombie or skeleton, you are stuck staying indoors or going out only at night. And Enderman is a little sensitive to water. You even change into previous mobs that you've already handed in with the easy-to-use GUI. That way you can keep the mobs you want to change in your back pocket when you need it. All you have to do is tap the left [or right] bracket keys to cycle through your options. Then press enter to morph. This mod requires the iChun API to be installed as well, found (here).
